

New Year invitation to brainwork session

EDUCATION FOR TOMORROW

XII -2016

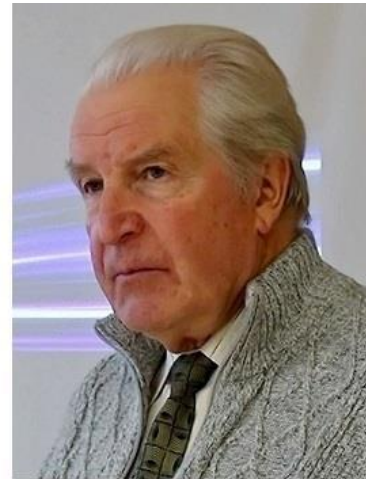

.....

EDUCATION for TOMORROW

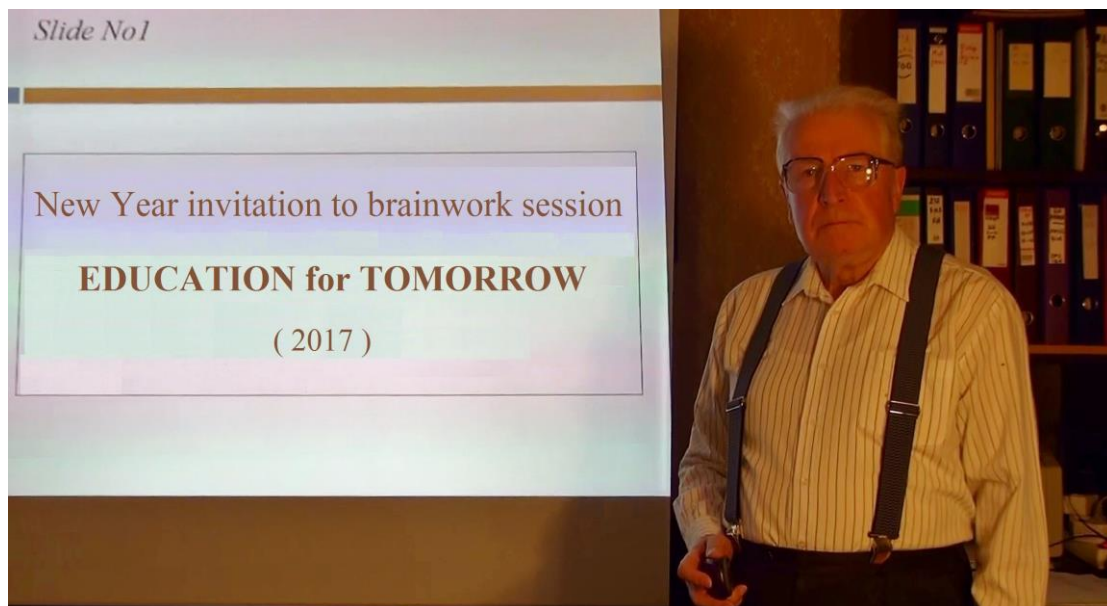

**LIFE
EXPERIENCE**
(knowledge,
attitudes,
skills)

for LIFE
(cognition,
consideration,
behavior)

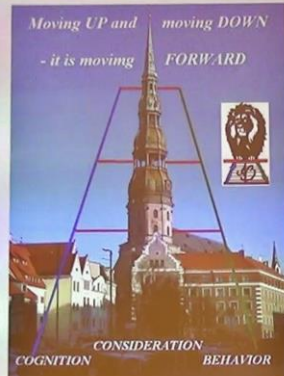

Hello, I am senior professor from the University of Latvia in Riga
Professor emeritus, Doctor of Physics - Andris Broks
andris.broks@lu.lv <http://blogi.lu.lv/broks/>
<https://blogi.lu.lv/broks/category/materials-in-english/>

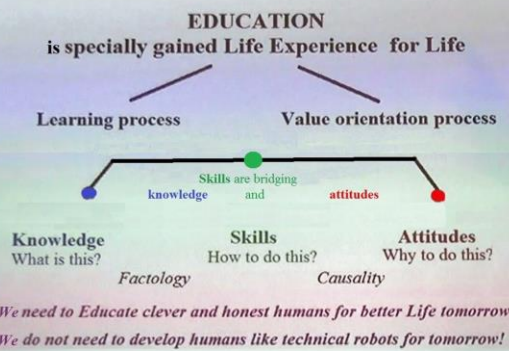

Slide No3

My trapezia

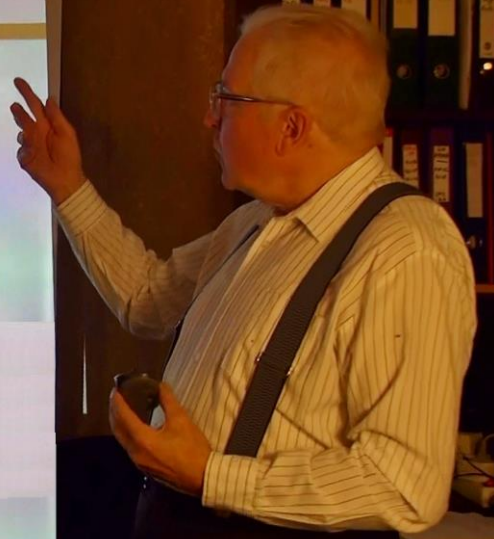

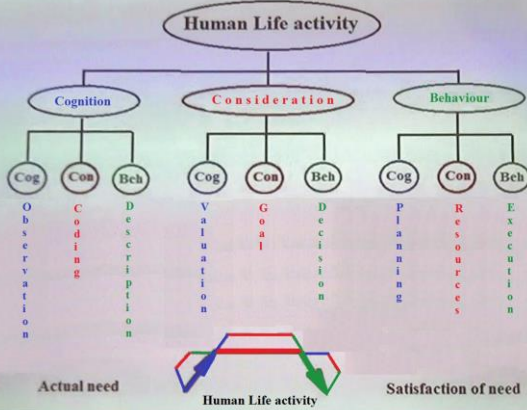

Slide No4

What does it mean «Education»?

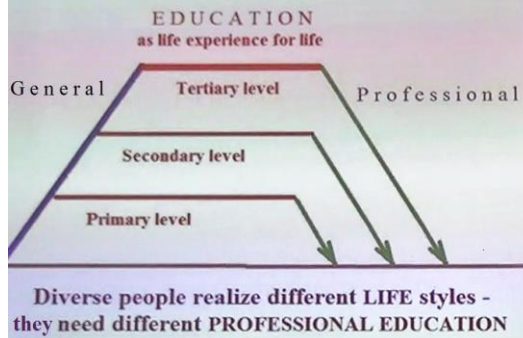

Slide No5 What does it mean «Life»?

LIFE is a systemic set of diverse human activities
General structure of human Life activities

Slide No6 What Education for what Life?

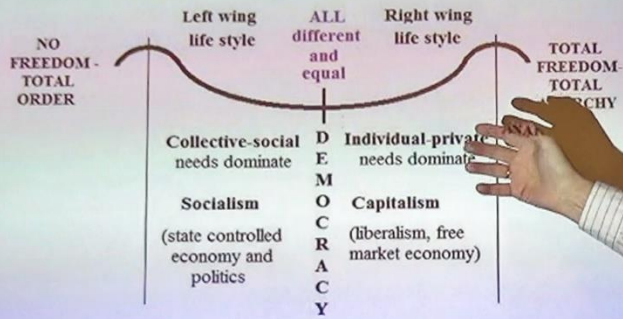

Hierarchy of humans' Society

Slide No7 We need sustainable development of Life and Education for tomorrow

Human Life within society needs corresponding Education
Collective and Individual human life activities

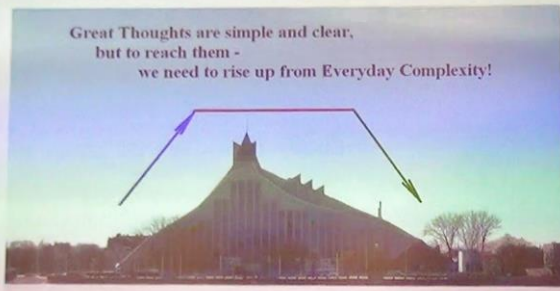

We all need sustainable (balanced and longtime) development of our Life and Education for tomorrow!

Slide No8 Conclusion

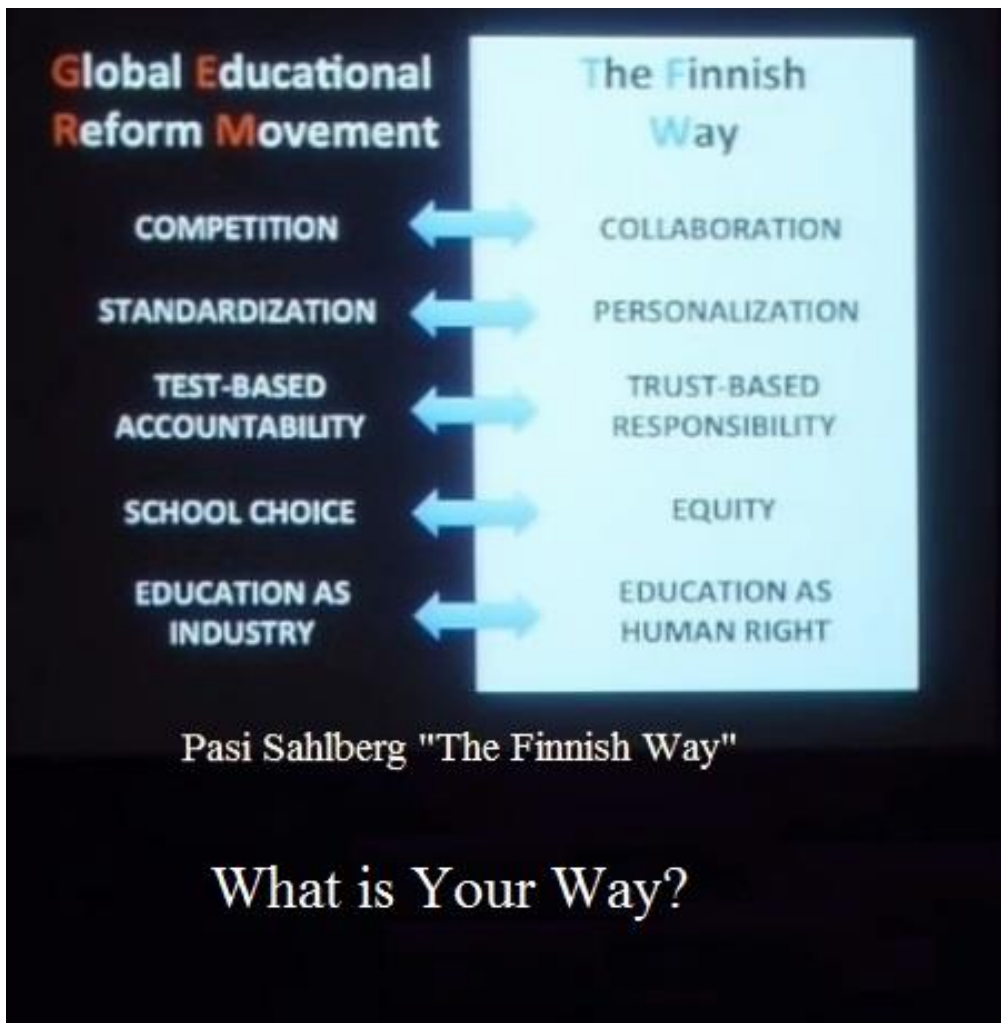

E d u c a t i o n – it is humans spiritual resource for L i f e

Great Thoughts are simple and clear,
but to reach them -
we need to rise up from Everyday Complexity!

Up and down - step by step forward !

**Let us work for successful solving
of this worldwide problem!**

*Corresponding audio as well as video records of this
invitation are available for download from*
